

BOARD BRIEFS

Board Work Session
Saturday, February 18, 2012
8:00 am

District Realignment and budget discussions

Dr. Reeder and Finance Director Matt Lewis presented the board with a district budget update and budget projections as well as a “blueprint” of what the district would look like if the two high schools were to merge. This would entail secondary grade level changes for grades 7 through 12.

The proposed changes would move grades 7 through 9 to the current Wyoming Park High School and grades 10 through 12 to the current Rogers High School, These changes could take place as early as fall 2012. Changes are necessary due to the continued lack of funding from the state with no relief in sight and declining enrollment

Discussion took place with the board regarding the presentation as well as taking questions and comments from the audience. No final decision has been made at this time and the board will continue seeking input through emails, discussions and phone calls until the March 12 board meeting when a vote will be taken.

****Links to the documents presented to the board are available on the district website under “WPS High School Consolidation Workshop “Blueprint”” at the top of the web page**
